SD7-533

645 Based Pentium4 -478 ATX Mainboard PC2700 DDR DRAM & 6 Channel Audio SoftMenu™ Technology

Specifications

- CPU**
- . Support for Intel Pentium4 Socket 478 processors with 400MHz (100MHz QDR) CPU Front Side Bus
- Chipset**
- . SIS645/961
 - . Supports Ultra DMA 33/66/100 IDE protocol
 - . Supports Advanced Configuration and Power Management Interface (ACPI)
 - . Accelerated Graphics Port connector supports
 - . AGP 2X(3.3V) and 4X(1.5V) mode (Sideband) device
 - . Supports 200/266/333MHz (100/133/166MHz Double Data Rate) Memory Bus Settings
- Memory**
- . Three 184-pin DIMM sockets support PC1600/PC2100/PC2700 DDR SDRAM module
 - . Supports up to 2GB DRAMs for unbuffered DDR PC2700 modules
 - . Supports up to 3GB DRAMs for unbuffered DDR PC1600/PC2100 modules
- Audio(Optional)**
- . C-Media 8738 /PCI-6CH PCI-Based HRTF 3 Dextension Positional Audio Chip
 - . Support 6CH DAC for AC3 5.1 CH purpose Professional digital audio interface supporting 24-bit SPDIF IN and OUT
- System BIOS**
- . SoftMenu™ III Technology to set CPU parameters
 - . Supports Plug-and-Play (PNP)
 - . Supports Advanced Configuration Power Interface (ACPI)
 - . Supports Desktop Management Interface (DMI)
 - . Write-Protect Anti-Virus function by AWARD BIOS
- Multi I/O Functions**
- . Two Channels of Bus Master IDE Ports supporting up to four Ultra DMA 33/66/100 devices
 - . Audio connector (AUX-IN, CD-IN, Line-in, Line-out, Mc-in, and Game Port)
 - . On board 2 USB connectors
- Miscellaneous**
- . ATX form factor
 - . 1 AGP slot, 5 PCI slots
 - . Hardware monitoring - Including Fan speed, Voltages, System environment temperature
 - . Built-in IrDA TX/RX header
