Electricity Concept: _____

Electricity Checklist

❑ We answered the following questions in our presentation:

 ❑ How is the selected resource used to generate electricity?
 ❑ What are the benefits and risks of using the resource to generate electricity?
 ❑ How does using the resource to generate electricity impact the environment?
 ❑ How has technology improved the process of generating electricity through the use of the resource?

❑ We worked together as a group to complete our presentation.

❑ We participated in a peer conference.

❑ We revised our presentation after receiving useful feedback.

❑ Our presentation is in final form. All punctuation, spelling, and grammar is checked and edited for errors.

❑ At least three resources were used during research.

❑ All resources are cited correctly.

❑ We consulted the Oral Presentation Scoring Guide and rehearsed our presentation according to the guidelines and requirements.
