Research Form: *Romeo & Juliet* Project

**Directions:** In this project, you will apply the themes and issues within *Romeo and Juliet* to modern life and work on solutions to age-old problems that are presented in the play: communicating with parents, dealing with peer pressure, maintaining self-control, making good decisions, combating hate crimes, and preventing suicide. This form is to help you keep track of your resources as you research the current needs of our community and determine a course of action. When completing your accompanying products (brochures, presentations, web sites, etc.), the following will be minimum requirements for research:

1. **Ten** total resources are consulted, and at least **five** of those resources are from completely different sources (not just different pages from the same main Web site).
2. All research materials come from reliable and trustworthy sources.
3. You analyze all content you use to determine whether it will “speak” to your particular audience. Only use those materials that will make the most impact.
4. Use this form as you research – both to help you keep track of good ideas, as well as to document that you are meeting the minimum research requirements of the project. This form is to be turned in with your final project.
