Name _____

Roller Coaster Database Rubric

Instructions: Read this rubric before beginning your Internet search. Score yourself when you are finished and then have your teacher sign off at the bottom verifying your results. Save your data base chart, scavenger hunt questions, and scavenger hunt answers on your U drive. Do not print documents until the teacher has signed this paper. Then print only the data base chart and turn into basket with rubric. You do not turn in scavenger hunt documents. Just show the teacher.

DATA BASE TASKS (minimum receives a score of 2, a 3 requires more)	3	2	1
Sources: At least two sources are given for each category.			
Description: A complete description is given for each source indicating what type of information is found on that site. No spelling errors.			
Internet addresses are accurate: Internet addresses are hyperlinked from the Word document.			
Scavenger Hunt: A minimum of three questions are typed per web site chosen with corresponding answer on another document. This document should be ready for other students to use.			
Scavenger Hunt Switch: Switch with at least one other student and complete their scavenger hunt. When finished, share answers. (This can be an extension activity)
