Publishing Plan for Web Site on Immigration Reform

Here are our plans for publishing our Web site on Immigration Reform. We plan to follow these steps and finish by having our Web site available on the Internet for anyone who would like to see it. The roles for each team member are:

Student	Role	Duties
Student 1:	Project Manager	Manage domain purchase and upload of Web site to host.
Student 2:	Editor	Edit site for errors: spelling, grammar, accuracy, relevance, and accessibility.
Student 3:	Testing Manager	Handle the usability testing.
Student 4:	Publicist	Publicize the Web site.

Publication Steps

1. Proof read our site.
   - Check for spelling and grammar errors.
   - Check the relevance and accuracy of the information.
   - Check for accessibility issues.

2. Investigate alternatives for publishing our Web site.
   - Use the school Web site.
   - Use a free web hosting service.
   - Use a paid hosting service.
   - Purchase a domain and use the space provided with the domain.
   - Recommendation: Purchase a domain and use space provided

3. Decide on a domain name.
   - Use Register.com to purchase a domain.
   - Register studenthtmlwizards.com as our domain name.
   - Use the FTP program from Register.com to upload our program.

4. Validate the code on our web site.
   - Use W3C validator or WDG Validator.
   - Use the CSS validator and URL validator on Lissa Explains All.

5. Test usability of the site:
   - Test our web site on a Windows PC and a Mac PC.
   - Create a checklist for usability.
   - Ask three classmates and two adults to use the site and give us feedback on it.

6. Publicize our site.
   - Give the URL to our friends and teachers at school.
   - Investigate contests for Web site design.
   - Add the Web site to open source resources, such as Wikipedia.
