Upcoming Webinars – **MARCH 2012**

Click a date to register for a calendar reminder. Presentations are one hour unless otherwise noted. If you're interested in one you missed, view the recording in our **Webinars and Events** section.

Dates	Webinar	Description
March 20 – 5pm Pacific	**Virtual Museum Resources** - Science: Up Close and Exciting!	First in a series of monthly museum webinars. Join educators from around the world to collaborate with The Adventure Science Center. Discover how you can use distance learning to connect super science experiments from Adventure Science Center in Nashville, TN directly to your classroom. Book front row seats for your students to observe amazing live science demonstrations with liquid nitrogen (super cool!), powerful magnets and the Science Center's 6-foot tall electric motor demonstrator. This program will include excerpts of two distance learning programs: "What's the Matter?" and "Magnets to Motors."
March 27 – 5pm Pacific	**Intel Teach Live!** Let's Hear it for the Primary Students - 21st Century PreK-3rd Grade Classrooms	This March, join Dyane and Vanessa along with special guests as they share some of the best 21st Century projects and applications for Pre-K through 3rd Grade.
