

***The Versatile AquaPAD  
Lets Professionals Communicate  
On The Move***

## Introduction

FIC is proud to present the AquaPAD: a webpad powerful enough to truly marshal the possibilities of a wireless world. The AquaPAD frees you from the unnecessary entanglements of wires, keyboards and the bulk of other "portable" devices, and allows you to access a network or the web anytime, anywhere.

AquaPAD combines the functionality and power of a cumbersome notebook with the convenience and simplicity of a PDA. This compact handheld Internet appliance offers high-speed wireless Internet access and can communicate with Bluetooth™-enabled devices. With its two **USB** inputs, a **PCMCIA** Type II slot, and a **Compact Flash** slot, there is truly no limit to AquaPAD's functionality. Additionally, AquaPAD comes loaded with **Windows® CE** and a full suite of utilities, including **MS Word**. The AquaPAD features a complete, highly rich, multimedia capability. With AquaPAD, the ability to surf the web, read e-book, listen to a **MP3**, or watch a **MPEG** movie is right in the palm of your hand—literally!

## Application

# Oh, the possibilities!

### 1. Mobile Client - Information à gogo!

With WAN/WLAN network and PHS/GPRS cell phone support, the AquaPAD is the solution for the wireless workplace.

**Hospital** staff can obtain and update patient data in real time.

**Insurance** agents can instantly access and modify client and claim information.

**Logistics** can be updated and shared on-site.

**Delivery** services can constantly update their shipping register and tracking information.

**Ordering** waiters in restaurants can present the menu in 3D and take orders digitally.

**What could it do for you? It's all possible with the AquaPAD.**

### 2. GPS - You are here.

The AquaPAD is designed to take advantage of the GPS navigation system. Instantly, the GPS system can tell you precisely where you are, and on what street. Take it with you as you drive and never get lost again!

### 3. That's Entertainment.

Full multimedia support is available for applications such as Macromedia Flash, MP3 and Shockwave. However, unlike its competition, AquaPAD can support MPEG video playback and web-pages that require plug-ins. Don't forget that all this power means the AquaPAD makes advanced gaming functions child's play. The AquaPAD is truly your portable entertainment hub!

### 4. Education - The Ultimate Teacher's Pet.

The AquaPAD is a necessity for today's digital classroom. Over a wireless network, educators can simultaneously direct rich multimedia content and documents to each student's AquaPAD, creating a vivid learning environment. What's more, with the AquaPAD, taking notes is a breeze. AquaPAD also weighs in as a perfect e-book. It's the perfect addition for the classroom, or the student.

### 5. Professional Tool - Take your show on the road!

With the AquaPAD, displaying MS PowerPoint® is no problem! Go into a meeting armed with the AquaPAD's vivid 8.4" TFT LCD screen and wow your client. With at least three hours of battery life, you'll have plenty of time to talk turkey.

## Advantage Summary

Whether you need to access a local network or the Internet, FIC's AquaPAD is the only solution to provide the power and capability to harness all the possibilities of wireless.

When it comes to performance, the AquaPAD takes no prisoners. The AquaPAD offers an incredibly fast 500MHz Transmeta™ Crusoe 5600 processor coupled with 128MB of SDRAM memory – so you'll have all the power you need. Plus, with the Crusoe's special energy saving design, you'll enjoy up to 3+ hours of battery life. The AquaPAD comes loaded with Microsoft® Windows® CE – and all of the functionality that comes with it. Plus, with our suite of utilities, the AquaPAD is immediately ready to get down to business.

## Accessories

The AquaPAD has its own comprehensive range of accessories. The AquaPAD ships with a **docking cradle** for convenient, rapid charging and **CF/IDE HDD Box** to connect to an external hard drive if required. Also available are **USB mouse and keyboard** and **PCMCIA DVD set** to give your AquaPAD the power of DVD ROM.

## Specification

### Processor

- Transmeta™ TM5600 processor 533MHz

### System Memory

- 128MB SDRAM
- 256MB for Windows® XP embedded

### Video & Audio

- 8.4" TFT LCD 800x600 Touch Screen
- 3D Audio via Internal speaker or phone jack and integrated internal Microphone

### Storage

- 32MB Compact Flash for Windows® CE.NET / Linux
- 1GB Micro Drive for Windows® 9X/ ME/ 2000/ Windows® XP embedded

### Expansion Slot

- PCMCIA Type II slot x 1
- Compact Flash slot x 1 (external storage)

### I/O Connector

- USB x 2 (host x 2, optional host x 1, client x 1)
- Headphone jack x 1, DC in connector x 1
- IrDA (FIR) x 1
- Optional VGA out connector

### Battery

- Lithium-Ion battery supports 3 hours full on operation at Windows® CE, 2 hours at Windows® OS
- More than 300 hours at STR mode under CE.NET

### Dimensions

- 274mm (L) x 164mm (W) x 26.7mm (H)

### Weight

- 1.15Kgs

### Operating System

- Windows® CE.NET
- Microsoft® Windows® 9X/ ME/ 2000/ Windows® XP embedded (via Micro Drive or External HDD)

### Software Features (for Windows® CE.NET)

- Embedded Pocket Word
- Internet Explorer
- Media Player
- Virtual Keyboard
- OS update function
- Power Point Viewer
- Excel Viewer
- RDP 5.1
- Handwriting Recognition
- PDF Viewer

### Utilities

- Pointer Calibration
- Printing (option)
- File transfer (via IrDA)
- Smart Battery indicator

### Wireless Communication

- WLAN, supports 802.11b, 802.11a, 802.11g
- WWAN, supports PHS, GPRS and CDMA Module
- GPS Module

### Accessories

- Rapid Charging Cradle
- CF/IDE HDD Box
- USB Keyboard (with Hub)
- USB Mouse
- PCMCIA DVD set
